

# Essential Steps: Pests - Plants & Animals

**\$2,573  
MILLION**

per year is  
spent on weed  
management  
in the grains  
industry<sup>1</sup>

**\$200  
MILLION**

in damage  
to agriculture  
is caused by  
rabbits every  
year<sup>1</sup>

**139  
AUSTRALIAN**

animal  
species are  
threatened  
by feral cats<sup>1</sup>

## Steps to a happy planet

**01**

Monitor your property for pest species, and report any sightings to the relevant government department in your state or territory.

**02**

Implement pest control methods to manage pests on your property.

**03**

Thoroughly clean machinery, vehicles, equipment and tools that have been in weed-infested areas.

**Refer to the relevant environment authority in your jurisdiction for further information**
