

RACV Safe Driver Training for business.

RACV Safe Driver Training offers driver safety courses for businesses wanting to improve their employees' driving skills, behaviour and knowledge in a safe learning environment.

Why choose RACV?

There are a number of RACV Safe Driver training courses available. They range from a few hours in a classroom to full day workshops including in car assessments. All programs are delivered by fully qualified RACV driving instructors and are available to businesses throughout Victoria.

A safe workplace

Occupational Health and Safety legislation requires employers to conduct assessments of the risks associated with work and the workplace and introduce measures to eliminate or control any risks identified. If your business has employees driving as part of their daily work, it makes sense to conduct risk assessments for the task of driving.

Note: There are no skidpan activities and the driving component is carried out on normal roads with the weather conditions that prevail on the day. Vehicles supplied by customer for in car assessment are conducted on-road in a range of urban traffic environments. In car participants must hold a current Victorian drivers licence. Additional charges may apply for travel to regional areas. All prices include GST. Terms & conditions apply, please visit racv.com.au/safedrivertraining.
